

解决出厂备份无法删除情况

识别码	备注
{00000000-0000-0000-...	出厂备份11.50GB
{046c1293-9d76-471a-...	xitong021911.10GB

1、桌面右击打开终端，执行

```
cd /backup/snapshots
```

再输入 ls 查看系统备份列表

```
bdglg@bdglg-pc: /backup/snapshots
文件(F) 编辑(E) 视图(V) 搜索(S) 终端(T) 帮助(H)
bdglg@bdglg-pc: ~/桌面 $ cd /backup/snashots
bash: cd: /backup/snashots: 没有那个文件或目录
bdglg@bdglg-pc: ~/桌面 $ cd /backup/snashots
bash: cd: /backup/snashots: 没有那个文件或目录
bdglg@bdglg-pc: ~/桌面 $ cd /backup/snapshots
bdglg@bdglg-pc: /backup/snapshots $ ls
{00000000-0000-0000-0000-000000000000} backuplist.xml
{046c1293-9d76-471a-a617-7638657b6ca4}
bdglg@bdglg-pc: /backup/snapshots $
```

2、使用 `sudo rm -rf {00000000-0000-0000-0000-0000-000000000000}`

删除这一条记录

3、使用 `cat backuplist.xml` 查看

```
bdglg@bdglg-pc: /backup/snapshots
文件(F) 编辑(E) 视图(V) 搜索(S) 终端(T) 帮助(H)
bdglg@bdglg-pc:~/桌面$ cd /backup/snapshots
bdglg@bdglg-pc:/backup/snapshots$ ls
{046c1293-9d76-471a-a617-7638657b6ca4} backuplist.xml
bdglg@bdglg-pc:/backup/snapshots$ cat backuplist.xml
<?xml version='1.0'?>
<backupList>
  <BackupPoint>
    <Comment>24-02-19 12:53:27</Comment>
    <Time>24-02-19 12:53:27</Time>
    <Uuid>{00000000-0000-0000-0000-000000000000}</Uuid>
    <Size>11.50GB</Size>
    <State>backup finished</State>
    <Type>0</Type>
  </BackupPoint>
  <BackupPoint>
    <Comment>24-02-19 14:00:26</Comment>
    <Time>24-02-19 14:00:29</Time>
    <Uuid>{046c1293-9d76-471a-a617-7638657b6ca4}</Uuid>
    <Size>11.10GB</Size>
    <State>backup finished</State>
    <Type>0</Type>
    <UserId/>
    <OS>Kylin-Desktop V10-JICAI</OS>
    <Arch>aarch64</Arch>
    <ArchDetect>arm64/efi</ArchDetect>
  </BackupPoint>
</backupList>
bdglg@bdglg-pc:/backup/snapshots$
```

4、运行 sudo pluma backuplist.xml

弹出文本编辑器删除下面空色框内文本直接保存，（这里需要删除那个文件根据自己情况定）

```
<BackupPoint>
  <Comment>24-02-19 12:53:27</Comment>
  <Time>24-02-19 12:53:27</Time>
  <Uuid>{00000000-0000-0000-0000-000000000000}</Uuid>
  <Size>11.50GB</Size>
  <State>backup finished</State>
  <Type>0</Type>
</BackupPoint>
```
